ONE WEEK OF NIGHT BRIDGE WORK ON I-293 IN MANCHESTER
WILL REQUIRE LANE CLOSURES ON BRIDGE OVER BROWN AVENUE

The New Hampshire Department of Transportation announces night construction work is scheduled to begin on Monday, June 2, 2003 on the Interstate 293 improvement project in Manchester.

This night work, which will involve the setting of structural steel on the I-293 bridge over Brown Avenue, will take place evenings from 9:00 PM until 5:00 AM for approximately one week.

Lane closures will be necessary on the I-293 bridge, both westbound and eastbound, in order to complete the work. Warning signs and State Police will assist motorists through the work zone.

George Cairns and Sons, Inc. of Londonderry, New Hampshire is the prime contractor for the \$13 million project, which is scheduled to be completed in 2004.
